The Company's enclosed Notice of Meeting refers to voting deadlines as per local market regulations. The attached important notice is specific to all holders holding ADSs as of both the ADS Record Date and the French Record Date.*

The Company has announced that the Meeting will be held at the date, time and location identified above. **A copy of the Notice of Meeting from the Company which includes the agenda for such Meeting is enclosed.**

As set forth in Section 4.10 of the Deposit Agreement and Paragraph (18) of the Form of ADR, Holders of record of ADSs as of the close of business on the ADS Record Date will be entitled, subject to any applicable provisions of French Law and the By-Laws of the Company and the provisions of or governing the Deposited Securities, to instruct the Depositary as to the exercise of the voting rights pertaining to the Deposited Securities represented by such Holders' ADSs. **French Law, as applied to the Holders of ADSs, requires that in order to vote, Holders of ADSs as of the ADS Record Date must continue to hold their ADSs (as evidence of their interests in the ordinary shares) as of the French Record Date.**

Holders of ADSs wishing to give voting instructions to the Depositary must sign, complete and return the enclosed Voting Instructions Card prior to the ADS Voting Instructions Deadline in the enclosed pre-addressed envelope.

Voting instructions may be given only in respect of a number of ADSs representing an integral number of Deposited Securities. Upon receipt by the Depositary of (i) the voting instructions from a holder of ADSs as of the ADS Record Date, in a form acceptable to the Company and the Depositary, on or before the ADS Voting Deadline, and (ii) evidence reasonably satisfactory to the Depositary that such holder continues to hold the ADSs as of the ADS Voting Deadline, the Depositary shall endeavor, insofar as practicable and permitted under any applicable provisions of French law and the Company's ByLaws, to cause to be voted the Deposited Securities represented by such ADSs in accordance with any non-discretionary instructions set forth in such voting instructions. If the Depositary receives, from a holder of ADSs as of the ADS Record Date and who continues to hold the ADSs as of the ADS Voting Deadline, voting instructions which fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such holder's ADSs, the Depositary will deem such holder to have instructed the Depositary to vote in favor of all resolutions endorsed by the Company's Board of Directors.

With respect to Deposited Securities represented by ADSs for which no timely voting instructions are received by the Depositary from the holder of ADSs, the Depositary shall deem such holder to have instructed the Depositary to give a discretionary proxy to a person designated by the Company to vote the Deposited Securities represented by such holders' ADSs; provided, however, that no such discretionary proxy shall be given by the Depositary with respect to any matter to be voted upon as to which the Company informs the Depositary that (i) the Company does not wish such proxy to be given, (ii) substantial opposition exists, or (iii) the rights of holders of Deposited Securities may be materially adversely affected. By way of example and not limitation, it is agreed that routine matters, such as appointing auditors and directors (except where a competing director or slate of directors is proposed), or the approval of a public offering or private placement of securities, would not materially affect the rights of holders of ADSs.

If you do not wish to vote as an ADS holder but rather wish to vote as a holder of the Company's ordinary shares, you will need to arrange for the cancellation of your ADSs and become a shareholder in France before the French Record Date. You are advised to proceed with the cancellation of your ADSs well in advance of the French Record Date as the cancellation of ADSs and the delivery of the corresponding ordinary shares in France may be subject to unexpected processing delays.

DTC Holders

In order to vote their ADSs, owners of ADSs ("DTC Holders") holding their ADSs in a brokerage or custodian account through The Depositary Trust Company ("DTC") as of the ADS Record Date must continue to own their ADSs as of the French Record Date and must instruct their broker or custodian to give voting instructions to the Depositary and to confirm ownership of the ADSs to the Depositary. On the French Record Date the Depositary will verify the continued ownership of the ADSs by the instructing DTC Holders with the applicable brokers or custodians (through which the instructing DTC Holders provided voting instructions to the Depositary). Failure to confirm continued ownership of ADSs as of the French Record Date will invalidate the voting instructions previously delivered.

Registered Holders

In order to vote their ADSs, Holders of ADSs registered in their name on the books of the Depositary ("Registered Holders") must timely deliver a Voting Instructions Card to the Depositary and continue to be the Registered Holders of their ADSs as of the French Record Date. If a Registered Holder transfers or cancels ADSs at any time before the French Record Date, then any voting instructions delivered to the Depositary by such Registered Holder will be invalidated. On the French Record Date, the Depositary will verify the continued registration on its books of the ADSs in the name of the instructing Registered Holders (who also held the ADSs as of the ADS Record Date) and will recognize as valid only the voting instructions that were timely received from Registered Holders as of the ADS Record Date who continue to be the Registered Holders of the ADS as of the French Record Date.

Please note that pursuant to Section 4.10 of the Deposit Agreement and Paragraph (18) of the Form of ADR, under French Company law certain shareholders, the workers' council and the Board of Directors of the Company may submit a new resolution, and the Board of Directors of the Company may also modify the resolutions proposed in the notice of meeting. In such case, Holders of ADSs who have validly and timely provided voting instructions to the Depositary shall be deemed to have instructed the Depositary to vote in favor of such new or modified resolutions if approved by the Board of Directors and against if not approved by the Board of Directors.

- drawing up the list of beneficiaries within the category of persons aforementioned and the number of shares to be allocated to each of them;
- at its own discretion, and when it deems it appropriate, charging the costs, fees and expenses generated by the capital increases pursuant to the delegation under this resolution, against the amount of the premiums related to these transactions and deducting, from these premiums, the sums required to bring the legal reserve to one-tenth of the new amount of share capital after each capital increase;

- in general terms, entering into any agreement, in particular in order to complete the intended issuances successfully, to take all measures and to perform all formalities appropriate for the issue, the listing and for the financial service of the shares issued under this delegation, as well as for the exercise of the rights attached thereto;

OVERVIEW

FINANCIAL YEAR ENDING DECEMBER 31st 2015

1. Situation of the Company and its subsidiaries and activities for the financial year ending December 31st 2015

Collectis S.A. (hereinafter “Collectis”, “the Company” or “we”) is a french *société anonyme* based in France with a registered office located in Paris. We are specialized in genome engineering and we use our core patented technologies to develop products in the emerging field of immuno-oncology. Our product candidates based on T cells to selectively modified genes, and that express chimeric antigen receptors, or CARs, aim to harness the power of the immune system to target and eradicate cancers. Our gene targeting technologies allow us to create CAR T allogeneic cells, which means they come from healthy donors rather than patients themselves. Besides our activity in immuno-oncology, we are also exploring the use of our technologies targeted modification of genes in other therapeutic applications, and seek, moreover, to develop healthier food for a growing population.

Collectis is listed since 2007 on the Alternext market of Euronext Paris. In March 2015, we completed a public offering of 5.5 million American Depositary Shares on the Nasdaq for gross proceeds of \$ 228.2 million.

The financial statements of the Company for the year ended December 31st 2015 include Collectis, its two French subsidiaries, Collectis Bioresearch and Ectycell, its three subsidiaries located in the United States, Collectis, Inc., Calyxt, Inc. (previously Collectis Plant Sciences, Inc.) and Collectis Bioresearch Inc. Our research activities in United States are performed at Collectis Inc. which is operating since April 2015. On May 18th 2015, we signed an agreement with the Caisse des Dépôts et Consignations for the purchase of the 25% of Collectis Bioresearch not yet held by Collectis SA. Collectis SA became the sole shareholder of Collectis Bioresearch. This transaction decreased the equity of the group of \$ 3.5 million. In addition, the Group proceeded to following internal reorganization that had no impact on the consolidated financial statements.

- Ectycell was merged with and into Collectis Bioresearch in August 2015, with retroactive effect as at January 1st 2015.
- Collectis Bioresearch was merged with and into Collectis in December 2015, with retroactive effect as at January 1st 2015.

Strategy

Our strategy is to exploit the potential of transforming our targeted gene modification technologies and expertise, through two product platforms: our cell engineering platform, designed to deliver therapeutic products, and our engineering plants platform, designed to provide healthier food for a growing population.

Key elements of our strategy are:

- **Advance our additional UCART product candidates into clinical trials.** We have a deep pipeline of promising immunotherapy product candidates in various stages of development, which we plan to develop and advance into clinical investigations. Based upon pre-clinical results to date, we expect several of our product candidates to enter into clinical trials in the coming years. We plan to continue to leverage our cell-engineering platform to develop additional UCART product candidates and to expand our clinical pipeline of CAR T-cell product candidates in the coming years.
- **Leverage our existing and potential future alliances to advance our research and to bring products to market.** Our strategic alliances with Pfizer and Servier for the development of CAR T-cell applications in oncology provide us with funding for research and development, and may provide milestone payments and royalties on sales. We may enter into additional strategic alliances to facilitate our development and commercialization of CAR T-cell immunotherapy products.
- **Expand our product pipeline to other therapeutic indications with unmet medical needs.** We intend to continue using our gene-editing technologies in therapeutic applications beyond immuno-oncology, including the treatment of chronic infectious diseases, autoimmune diseases and allergic diseases.
- **Develop plant products for the multibillion dollar agricultural-biotechnology market through the use of our gene-editing platform.** We are applying our gene-editing technologies to create food products with consumer health benefits, adaptations for climate change or nutritional enhancements that address the needs of a growing population. By selecting and inactivating

target genes in certain agricultural crops, we believe we can produce unique variants with consumer benefits. For example, we are developing a potato that could be stored safely in cold conditions and have completed the first field trials for this product, new soybean breeds with improved oil qualities and protein content, of which we have completed the second year of field trials and powdery mildew resistant wheat. We also intend to integrate additional crops into our product pipeline, including canola, corn and rice.

2. Review of Financial Statements and Results

Collectis' Annual Accounts

Our net sales amounted to 52.671.168 euros, an increase of 231.97% from the amount of 22.706.204 euros recorded in 2014. The result for the year is a profit of 11.370.668 euros against a profit of 2.831.531 euros for 2014.

Income statement

The consolidated revenues amounted to the sum of 50.346K€ against 21.627K€ for the previous year. The increase of 28.7 million euros, or 132.8%, mainly due to the increase of 36.4 million euros of revenues under our collaboration agreements with Pfizer and Servier, partly offset by decrease in licenses revenue (-5.3 million euros), R&D services (-1.3 million euros) and income from sales of products and services (-1.1 million euros).

Consequently, loss from continuing operations amounted to -20.373K€ against -972K€ for the previous year.

Current assets on December 31st, 2015, amounted 334.218K, including 314.238K€ cash and cash equivalents.
